DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because informal drawings were submitted when filing the application.

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.

The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1 - 44 are allowed.

The following is an examiner's statement of reasons for allowance:

The current invention discloses a caller ID logging device located in a subscriber's switched telephone network as shown in figure 4. The caller ID logging device 12 comprises a gateway 14 connected to Internet 13 and a line peripheral 21 connected to SSP 6, so that the caller ID logging device is accessible by a computer through Internet via the gateway 14, and separately by a telephone through a telephone network via the line peripheral 21. The current invention thus teaches two separate access ports (gateway and line peripheral) of the caller ID logging device.

Gurbani (US 6,282,275) discloses a caller identification (ID) server 124 for logging caller IDs. Gurbani teaches accessing the caller ID server 124 only through Internet server 126. Gurbani fails to teach the claimed invention of two separate access ports for caller ID server 124.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
